

SUMMER SCHOOL

GENOMIC MEDICINE – Bridging research and the clinic

03. 05. 2016 – 07. 05. 2016

Hotel Histron, Portorož, Slovenia

PRELIMINARY PROGRAMME

	03. 05. 2016	04. 05. 2016	05. 05. 2016	06. 05. 2016	07. 05. 2016
Morning session	Satellite Workshop: <i>In vitro</i> and <i>in vivo</i> models for development of novel diagnostic and therapeutic approaches	Pharmacogenomics and pharmacoepigenomics	Oxidative stress and disease Predictive and prognostic biomarkers	Bioinformatics and biostatistics for translational research Emerging technologies in pharmacogenomics	Translation to clinical practice Closing plenary lecture
Afternoon session	Opening plenary lecture NGS in genomic medicine and rare diseases	Pharmacogenetics and personalized medicine	Genomic medicine – where do we stand: round table Excursion to Piran	Cancer genomics Molecular epidemiology of pancreatic cancer New approaches to personalized cancer treatment	
	Welcome reception	Dinner	Dinner in Piran	Gala dinner
